New Aerospace Titles

**Integrated Vehicle Health Management: The Technology**  
By Ian K. Jennions  
$89.95 List  
Product Code R-429

**Integrated Vehicle Health Management: Business Case Theory and Practice**  
By Ian K. Jennions  
Exploring IVHM from a business perspective, this book builds the commercial justification for adopting a new asset health management process.  
$99.95 List  
Product Code R-414

**IVHM / Integrated Vehicle Health Management (Set)**  
By Ian K. Jennions  
This groundbreaking set addresses both basic and advanced concepts critical for the understanding of IVHM, along with the commercial justification for the adoption of a new asset health management system.  
$149.95 List  
Product Code R-405.SET

**Automated/Mechanized Drilling and Countersinking of Airframes**  
By George Nicholas Bullen  
The focus of this book is on automating the process of drilling and countersinking holes during airframe manufacturing.  
$99.00 List  
Product Code R-416

**Composite Materials Handbook Volume 1**  
Polymer Matrix Composites: Guidelines for Characterization of Structural Materials  
Volume 1 of the six-volume CMH-17 compendium provides guidelines for determining the properties of polymer matrix composite material systems and their constituents.  
$219.95 List  
Product Code R-422

**Composite Materials Handbook Volume 2**  
Polymer Matrix Composites: Materials Properties  
Volume 2 of the CMH-17 six-volume compendium contains statistically-based data for polymer matrix composites that meet specific CMH-17 population sampling and data documentation requirements.  
$279.95 List  
Product Code R-423

**Composite Materials Handbook Volume 2 (DVD)**  
Polymer Matrix Composites Materials Properties  
$279.95 List  
Product Code R-423DVD

**Composite Materials Handbook Volume 3**  
Polymer Matrix Composites: Materials Usage, Design, and Analysis  
Volume 3 of the CMH-17 six-volume compendium provides methodologies and lessons learned for the design, analysis, manufacture, and field support of fiber-reinforced, polymer-matrix composite structures.  
$279.95 List  
Product Code R-424

**Composite Materials Handbook Volume 3 (DVD)**  
Polymer Matrix Composites Materials Usage, Design, and Analysis  
$279.95 List  
Product Code R-424DVD

**Composite Materials Handbook Volume 1 (DVD)**  
Polymer Matrix Composites: Guidelines for Characterization of Structural Materials  
$219.95 List  
Product Code R-422DVD

**Composite Materials Handbook Set, Volumes 1, 2, and 3 (DVD)**  
This 3 volume set, part of the Composite Materials Handbook (CMH-17) engineering reference tool, contains properties of composite materials that meet specific data requirements as well as guidelines for design, analysis, material selection, manufacturing, quality control, and repair.  
$759.95 List  
Product Code R-422.SET3DVD

New Ground Vehicle Titles

Dynamic Analysis and Control System Design of Automatic Transmissions
By Shushan Bai, Joel M. Maguire, Huei Peng
This well-illustrated book relays how the fundamental principles of hydraulics and control systems are applied to today's automatic transmissions.
$99.95 List
Product Code R-413

Plastics Application Technology for Safe and Lightweight Automobiles
By Sudhakar Marur
This book is focused on the use of plastics in automobiles, not just for traditional applications such as interiors and body panels, but for more advanced uses such as under-the-hood components.
$99.95 List
Product Code R-415

Changes in Plain Bearing Technology
By Rolf Koring
A unique fusion of theoretical and practical knowledge, this book covers a meaningful range of expertise in this field and is a must-read for those looking for new solutions in this high-impact area of mechanical engineering.
$85.00 List
Product Code R-420

Composite Materials Handbook Volume 1
Polymer Matrix Composites: Guidelines for Characterization of Structural Materials
Volume 1 of the six-volume CMH-17 compendium provides guidelines for determining the properties of polymer matrix composite material systems and their constituents.
$219.95 List
Product Code R-422

Composite Materials Handbook Volume 1 (DVD)
Polymer Matrix Composites: Guidelines for Characterization of Structural Materials
$219.95 List
Product Code R-422DVD

Composite Materials Handbook Set, Volumes 1, 2, and 3 (DVD)
This 3 volume set, part of the Composite Materials Handbook (CMH-17) engineering reference tool, contains properties of composite materials that meet specific data requirements as well as guidelines for design, analysis, material selection, manufacturing, quality control, and repair.
$759.95 List
Product Code R-422SET3DVD

Composite Materials Handbook Volume 2
Polymer Matrix Composites: Materials Properties
Volume 2 of the CMH-17 six-volume compendium contains statistically-based data for polymer matrix composites that meet specific CMH-17 population sampling and data documentation requirements.
$279.95 List
Product Code R-423

Composite Materials Handbook Volume 2 (DVD)
Polymer Matrix Composites Materials Properties
$279.95 List
Product Code R-423DVD

Composite Materials Handbook Volume 3
Polymer Matrix Composites: Materials Usage, Design, and Analysis
Volume 3 of the CMH-17 six-volume compendium provides methodologies and lessons learned for the design, analysis, manufacture, and field support of fiber-reinforced, polymeric-matrix composite structures.
$279.95 List
Product Code R-424

Composite Materials Handbook Volume 3 (DVD)
Polymer Matrix Composites Materials Usage, Design, and Analysis
$279.95 List
Product Code R-424DVD

Automotive Lubricants and Testing
By George E. Totten, Simon C. Tung
This book provides a comprehensive overview of various lubrication aspects of a typical powertrain system including the engine, transmission, driveline, chassis, and other components.
$140.00 List
Product Code R-413

Introduction to Internal Combustion Engines, Fourth Edition
By Richard Stone
Now in its fourth edition, this book remains the indispensable guide to internal combustion engines and serves as valuable reference for both students and professional engineers.
$81.00 List
Product Code R-391

Composite Materials Handbook Volume 1
Polymer Matrix Composites: Guidelines for Characterization of Structural Materials
$219.95 List
Product Code R-422DVD

Composite Materials Handbook Volume 3
Polymer Matrix Composites Materials Usage, Design, and Analysis
$279.95 List
Product Code R-424

Composite Materials Handbook Volume 3 (DVD)
Polymer Matrix Composites Materials Usage, Design, and Analysis
$279.95 List
Product Code R-424DVD

Composite Materials Handbook Volume 2
Polymer Matrix Composites: Materials Properties
Volume 2 of the CMH-17 six-volume compendium contains statistically-based data for polymer matrix composites that meet specific CMH-17 population sampling and data documentation requirements.
$279.95 List
Product Code R-423

Composite Materials Handbook Volume 2 (DVD)
Polymer Matrix Composites Materials Properties
$279.95 List
Product Code R-423DVD

Composite Materials Handbook Set, Volumes 1, 2, and 3 (DVD)
This 3 volume set, part of the Composite Materials Handbook (CMH-17) engineering reference tool, contains properties of composite materials that meet specific data requirements as well as guidelines for design, analysis, material selection, manufacturing, quality control, and repair.
$759.95 List
Product Code R-422SET3DVD
Advanced Hybrid Powertrains for Commercial Vehicles
By Haoran Hu, Simon Baseley, Rudolf M. Smaling
This book provides a broad and comprehensive look at hybrid powertrain technologies for commercial vehicles.
$99.95 List
Product Code R-396

Laser Diagnostics and Optical Measurement Techniques in Internal Combustion Engines
By Hua Zhao
This latest edition focuses on laser-based optical techniques for combustion flows and in-cylinder measurements including new chapters on optical engines and optical equipment.
$109.95 List
Product Code R-406

Engine Failure Analysis
Internal Combustion Engine Failures and Their Causes
By Stefan Zima, Ernst Greuter
Offering solutions for a scope of general-purpose engines, this book is ideal for shops, offices and classrooms.
978-0-7680-0885-2, 582 pp., Hardbound 2012.
$109.95 List
Product Code R-320

Vehicle Noise, Vibration, and Sound Quality
By Gang Sheng (Gang Sheng Chen)
The knowledge this book imparts can be applied to analyze real-world problems and devise solutions that reduce vibration, control noise, and improve sound quality in all vehicles.
$119.95 List
Product Code R-400

Tire and Vehicle Dynamics
Third Edition
By Hans B. Pacejka
Encompassing the latest developments on tire mechanics, this definitive third edition combines theory, guidance, discussion and insight in one comprehensive reference.
$69.95 List
Product Code R-404

Occupant Protection and Automobile Safety in the U.S. since 1900
By Roger F. Wells
This book provides a historical review of automobile safety features and outlines the impact of the automobile on society with a focus of accidents and the technological advances that have contributed to safer driving.
$69.95 List
Product Code R-400

Onboard Diagnostics and Measurement in the Automotive Industry, Shipbuilding, and Aircraft Construction
By Michael Palocz-Andresen
This book provides a state-of-the-art report on the recent developments on the determination of emissions and the estimation of concentration of pollutants in the exhaust pipe.
978-0-7680-2078-6, 182 pp., Hardbound 2012.
$85.00 List
Product Code R-410

eBooks now available in the SAE Digital Library!
More than 130 eBook titles are now available to you by subscription in the SAE Digital Library, the most comprehensive resource for the mobility industry with more than 175,000 technical papers, standards, eBooks and related publications—from SAE and other organizations.

Try it now!
Access the free demo at digitallibrary.sae.org today.

Design Practices: Passenger Car Automatic Transmissions  
Fourth Edition  
The latest edition of this definitive handbook of automatic transmission design is a major overhaul and includes the latest technology, such as DCTs and CVTs.  
978-0-7680-1125-8, 768 pp., Hardcover 2012.  
$129.95 List  
Product Code AE-29

Autonomous Vehicles for Safer Driving  
By Ronald K. Jurgen  
This compendium includes SAE papers that were carefully selected to bring the reader up to date on successful demonstrations of autonomous vehicles, ongoing projects, and what the future may hold for this technology.  
$99.00 List  
Product Code PT-158

V2V/V2I Communications for Improved Road Safety and Efficiency  
By Ronald K. Jurgen  
This book explores the challenges in developing vehicle communications and provides the latest information on V2V/V2I technology.  
$119.95 List  
Product Code PT-154

Autonomous Vehicles and V2V/V2I Communications (Set)  
By Ronald K. Jurgen  
This two-volume set consists of two edited books: Autonomous Vehicles for Safer Driving (PT-158) and V2V/V2I Communications for Improved Road Safety and Efficiency (PT-154).  
$185.00 List  
Product Code PT-158.SET

Kinetic Energy Recovery Systems for Racing Cars  
By Alberto Boretti  
The preface of this book details the theory behind the kinetic energy recovery systems (KERS) concept. Four SAE technical papers follow the preface and focus on the use of KERS technology in Formula One racing.  
$39.95 List  
Product Code PT-159

Design of Racing and High-Performance Engines 2004-2013  
By Douglas Feahan  
This book is a collection of technical papers carefully selected from the SAE archive that will inspire readers to use race engine development as an important tool in the future of transportation.  
$109.95 List  
Product Code PT-157

Engine Design Concepts for World Championship Grand Prix Motorcycles  
By Alberto Boretti  
This book was developed especially for racing enthusiasts to provide a broad view of WCGP motorcycle racing and vehicles.  
$89.95 List  
Product Code PT-155

Best Sellers

**Integrated Vehicle Health Management: Business Case Theory and Practice**  
*By Ian K. Jennions*  
Exploring IVHM from a business perspective, this book builds the commercial justification of adopting a new asset health management process.  
**$99.95 List**  
Product Code R-414

**Brake Design and Safety, Third Edition**  
*By Rudolf Limpert*  
This third edition provides readers with the basic theoretical fundamentals and analytical tools necessary to design braking systems for passenger vehicles and trucks that comply with safety standards.  
**$99.95 List**  
Product Code R-398

**Allied Aircraft Piston Engines of World War II**  
*By Graham White*  
This book illuminates some of the historically significant technical developments that were incorporated into World War II aircraft engines that contributed to the execution of the war.  
**$59.95 List**  
Product Code R-154

**Fundamentals of Automobile Body Structure Design**  
*By Donald E. Malen*  
This book illustrates the effect of changing design parameters on the behavior of automobile body structural elements and offers valuable insight to students and engineers.  
978-0-7680-2169-1, 468 pp., Hardbound 2011.  
**$89.95 List**  
Product Code R-394

**We Were The Ramchargers Inside Drag Racing's Legendary Team**  
*By David Rockwell*  
This Best Selling book takes you behind the scenes with the group of Chrysler engineers who, from the 1950s through the 1970s, became one of the most successful and influential drag racing teams of all time.  
**$39.95 List**  
Product Code R-384

**Introduction to Internal Combustion Engines, Fourth Edition**  
*By Richard Stone*  
Now in its fourth edition, this book remains the indispensable guide to internal combustion engines and serves as valuable reference for both students and professional engineers.  
**$81.00 List**  
Product Code R-391

**Engine Failure Analysis Internal Combustion Engine Failures and Their Causes**

**$109.95 List**  
Product Code R-320

**Analysis Techniques for Racecar Data Acquisition**  
*By Jorge Segers*  
This book covers data acquisition technology and helps readers use this data to gain a key advantage on the racetrack.  
**$79.95 List**  
Product Code R-367

**Diesel Emissions and Their Control**  
*By Magdi K. Khair, W. Addy Majewski*  
This book will assist readers in meeting today's tough challenges of improving diesel engine emissions, diesel efficiency, and public perception of the diesel engine.  
**$149.95 List**  
Product Code R-303

**Vehicle Noise, Vibration, and Sound Quality**  
*By Gang Sheng (Gang Sheng Chen)*  
The knowledge this book imparts can be applied to analyze real-world problems and devise solutions that reduce vibration, control noise, and improve sound quality in all vehicles.  
**$119.95 List**  
Product Code R-400

**Vehicular Engine Design**  
By Kevin L. Haag  
This book covers each major engine component and subsystem in a step-by-step process and is intended for student engineers, automotive industry practitioners and engineers working in government agencies responsible for engine regulation.  
**$69.99 List**  
Product Code R-369

**Internal Combustion Engine Handbook Basics, Components, Systems, and Perspectives**  
By Richard Van Basshuysen, Fred Schaefer  
This book illustrates knowledge in engine development, paying particular attention to the presentation of theory and practice in a balanced ratio.  
**$149.95 List**  
Product Code R-345

**Finite Element Analysis for Design Engineers**  
By Paul M. Kurowski  
This book focuses on an understanding of FEA fundamentals which are explained through simple and intuitive examples.  
**$79.95 List**  
Product Code R-349

**Automotive Engineering Fundamentals**  
By Richard Stone, Jeffrey K. Ball  
The authors provide an overview, which is designed to give the student of automotive engineering a basic understanding of the principles involved with designing a vehicle.  
**$99.95 List**  
Product Code R-199

**Car Suspension and Handling, 4th Edition**  
By Geoffrey Howard, Donald Bastow, John Peter Whitehead  
This fourth edition focuses on the suspension and handling of cars, or automobiles, while recognizing that there are differences in suspension requirements for different classes of vehicles.  
**$39.99 List**  
Product Code R-318

**Race Car Vehicle Dynamics - Problems, Answers and Experiments**  
By Douglas L. Milliken, Edward M. Kasprzak, L. Daniel Metz, William F. Milliken  
This is a companion workbook to *Road Vehicle Dynamics* and is widely used as a college textbook.  
**Buy the set and save!**  
*Road Vehicle Dynamics*  
**$69.95 List**  
Product Code R-280

**The Racing and High-Performance Tire Using the Tires to Tune for Grip and Balance**  
By Paul W. Haney  
This book presents clear, non-academic explanations of how and why tires really work with insight into the complexity of rubber and how to tune grip and balance using the load sensitivity of tires.  
**$59.95 List**  
Product Code R-351

**Chassis Design Principles and Analysis**  
By William F. Milliken, Douglas L. Milliken  
This book based on Oiliy’s technical writings is the first complete presentation of his life and work. It provides insight into the development of chassis technology and its practical application by a master.  
**$79.95 List**  
Product Code R-206

**Formula 1 Technology**  
By Peter Wright, Tony Matthews  
This book offers an in-depth look at the engineering, design and production of Formula 1 cars. It focuses on the most technically challenging years, showing how the technology and engineering have evolved.  
**$49.95 List**  
Product Code R-230

**Race Car Vehicle Dynamics**  
By William F. Milliken, Douglas L. Milliken  
This book is comprehensive in its coverage of the fundamental concepts of vehicle dynamics and their application in a racing environment which are also applicable to passenger car design and engineering.  
**$99.95 List**  
Product Code R-146

**Design and Simulation of Four-Stroke Engines**  
By Gordon P. Blair  
This book provides design assistance with the actual mechanical design of an engine in which the gas dynamics, fluid mechanics, thermodynamics, and combustion have been optimized.  
**$99.95 List**  
Product Code R-186

**Race Car Vehicle Dynamics Book and Problems, Answers and Experiments Set**  
By William F. Milliken, Douglas L. Milliken, L. Daniel Metz, Edward M. Kasprzak  
This set includes *Race Car Vehicle Dynamics* and the companion workbook, *Race Car Vehicle Dynamics - Problems, Answers and Experiments*.  
**$149.95 List**  
Product Code R-146 SET
Best Sellers

**Aerodynamics of Road Vehicles**  
*From Fluid Mechanics to Vehicle Engineering*  
This comprehensive book discusses the aerodynamics of passenger cars, commercial vehicles, sports and race cars, and motorcycles, along with related fields that are influenced by aerodynamics.  
$99.95 List  
Product Code R-177

**Advanced Hybrid Powertrains for Commercial Vehicles**  
*By Haoran Hu, Simon Baseley, Rudolf M. Smaling*  
This book provides a broad and comprehensive look at hybrid powertrain technologies for commercial vehicles.  
$99.95 List  
Product Code R-396

**Ford: Dust and the Glory**  
*A Racing History Volume 1 (1901-1967)*  
*By Leo Levine*  
This book features the stories and numerous photographs of the great races, the great cars, and the legendary personalities associated with Ford and its great competitors of the era.  
$19.99 List  
Product Code R-292

**Advanced Hybrid Powertrains for Commercial Vehicles**  
*By Haoran Hu, Simon Baseley, Rudolf M. Smaling*  
This book provides a broad and comprehensive look at hybrid powertrain technologies for commercial vehicles.  
$99.95 List  
Product Code R-396

**Fundamentals of Vehicle Dynamics**  
*By Thomas D. Gillespie*  
This book provides a foundation of engineering principles and analytical methods to explain automotive vehicle performance. An introduction to the basic mechanics governing vehicle performance and terminology is covered.  
$79.95 List  
Product Code R-114

**Design Practices: Passenger Car Automatic Transmissions**  
*Fourth Edition*  
The latest edition of this definitive handbook of automatic transmission design is a major overhaul and includes the latest technology, such as DCTs and CVTs.

ORDERING INFORMATION

Ordering Methods
Orders can be placed by selecting one of these five convenient methods:

1. **Internet**
   Visit store.sae.org for more information on all SAE titles and to place your order online.

2. **Telephone**
   Contact SAE Customer Service Monday through Friday, 8:00 a.m. - 5:00 p.m. ET
   1-877-606-7323 (Toll free U.S. and Canada)
   1-724-776-4970 (Outside U.S. and Canada)
   Telephone interpretation services are available. Please ask the Customer Service Representative handling your call for an interpreter to join your conversation.

3. **E-mail**
   CustomerService@sae.org

4. **Fax**
   1-724-776-0790
   To prevent duplicate charges, do not mail the order if you have already faxed it.

5. **Mail**
   SAE Customer Service
   Dept. P135337
   400 Commonwealth Dr.
   Warrendale, PA 15096-0001 USA

Please have the following information available when placing your order:
- This catalog promotion code: P135337
- Your customer number or valid SAE membership number (can be found on a prior invoice or mailing label)
- Your deposit account number, if applicable

Pricing and Tax
Prices are subject to change without notice. All orders will be shipped at current prices. Unless a tax exemption certificate is on file, Pennsylvania residents must add 7% sales tax (6% state; 1% county); Michigan residents add 6% sales tax; and California residents add 7.25% sales tax to all orders. Washington D.C. residents add 5.75% sales tax, and Florida residents add 6%, plus applicable county sales tax. Illinois add 6.25% sales tax, New York add 7% sales tax plus applicable county tax, Virginia residents add 5% sales tax, North Carolina residents add 4.75% sales tax plus applicable county tax. Canadian residents are subject to a 7% goods and sales tax (GST). Georgia residents add 7% Sales Tax, plus applicable county sales tax.

Payment Options
We accept the following credit cards as forms of pre-payment: VISA, MasterCard, American Express, and Discover. We also accept money orders, personal or company checks in US Dollars only made payable to SAE, drawn on a U.S. bank and purchase orders. If you are paying by purchase order, please attach the order form or include on your PO. the information specified in the order section of the form. Proforma invoices will be sent upon request.

Shipping Options
SAE typically ships orders via UPS. We also ship via U.S. Mail. Orders can be shipped overnight if requested. Call SAE Customer Service to determine the best shipping option to meet your needs. Actual shipping charges are applied to all orders. For an estimate of shipping charges for a particular order, contact SAE Customer Service.

Standing Orders
SAE publishes a number of books and technical papers on a regular basis, enabling you to establish standing orders. This time-saving convenience insures that you will automatically receive a book as soon as it's published. You'll also save money, as SAE will pay all regular shipping and handling charges (with the exception of overseas orders). You will never have to check your order unless you need to change it. To establish a standing order, send a purchase order to SAE stating the books you would like to receive on a standing order basis, and SAE will handle the rest. For complete details on what standing order options are available to you, call SAE Customer Service.

Quantity Discounts
Quantity discounts are available for many of our publications. Call SAE Customer Service for more information.

Deposit Accounts
Start an SAE Deposit Account and save valuable time and money! SAE Deposit Account subscribers initially deposit a minimum of $750 to their account, and are then assigned an account number. As a Deposit Account holder, you will automatically receive a 10% discount off the list price of many of our publications and will not be charged regular shipping and handling costs, with the exception of overseas orders where actual shipping charges will be applied. With each purchase, you simply “draw against” the deposit. An invoice will accompany each order, showing purchasing details and the account balance. A minimum balance of $500 must be maintained. To start your SAE Deposit Account, call SAE at 1-724-776-4970.

SAExpress - Global Document Service
SAE can provide you with access to over 100,000 documents from 30 societies from around the world through SAExpress — Global Document Service. Documents from 400 journals, standards, and conference proceedings cover all areas of land, sea, air and space vehicles dating back as far as 1906. Many convenient delivery options are available. Contact SAE Customer Service for details.

Customer Service
Your satisfaction is of utmost importance to us. We are aware that customer input is the basis for continuously improving our service to you. We welcome your suggestions.

 Guarantee
Your satisfaction is 100% guaranteed. If you are unsatisfied with a publication you purchased, you may return it in saleable condition for an exchange, credit, or full refund within 30 days of the purchase date. For your convenience, necessary forms for returns are included with your shipment. This guarantee does not cover special requests requiring photocopying or orders from book dealers.

SAE Returns Policy
To ensure our customers receive prompt and proper credits for products returned to SAE in saleable condition, the returns form included in the shipment must be completed and accompany the return.

1. Print products must be returned within 30 days of invoice date.
2. DVD, CD-ROM, software, or video products must be returned within 30 days of invoice date. Product must be in original shrink-wrapped package (unopened). SAE does not accept returns of any CD-ROM, software, or video products that have been opened.
3. SAE does not accept returns of downloadable documents or web products.
4. SAE does not accept returns of magazines, photocopies or quantity purchases of print products.
5. University Bookstores may return 20% of their original order of unused print products within 60 days of invoice date.
6. Shipping fees will only be refunded if the return is due to an SAE error.
7. No returns are accepted from book dealers, distributors, or resellers. All sales are final unless the product is damaged. Replacements will be issued - no credits or refunds.

SAE Members Save!
Visit books.sae.org to see the Member discount on most products priced under $500.
Customers residing in the following areas may place orders for SAE International publications through one of the following agents for SAE publications, through local book dealers/stores, or through SAE directly.

When ordering directly through SAE:
Prepayment in full should accompany the order. The following are acceptable as payment:
• The preferred method of payment for overseas orders is via credit card. SAE accepts VISA, MasterCard, American Express, and Discover.
• Personal or company checks in U.S. dollars made payable to SAE International, drawn in a U.S. bank.
• International money orders.
• Electronic Funds Transfer: Please fax all documentation to 1-724-776-2449 or mail to Accounts Receivable, 400 Commonwealth Dr., Warrendale, PA 15086 USA to ensure accurate payment application. Sun Trust Bank, 1455 New York Ave NW, Washington DC 20005-3108 USA. Acct#206706413 • ABA #060020707 • Swift Code SNTRUS3A
• Bank wire: *Please note bank wires will only be accepted in amounts exceeding $500.00. If payment is for an amount less than $500.00 please choose an alternate payment method or contact Customer Service at 1-724-776-4970. Please fax all documentation and invoice number to 1-724-776-2449 or mail to Accounts Receivable, 400 Commonwealth Dr., Warrendale, PA 15086 to ensure accurate payment application. Sun Trust Bank, 1455 New York Ave NW, Washington DC 20005-2108 USA. Acct#206706413 • ABA #061000104 • Swift Code SNTRUS3A
• Please provide bank transfer number with your order. All necessary customs regulations and declaration forms should be included. Proforma invoices will be sent upon request or if an order is received without prepayment. Most orders are shipped International Standard and should reach overseas destinations within 2 – 5 weeks. Express shipping is available upon request for an additional charge.
